Arrowwood School Re-opened Monday

Monday morning of this week saw considerable excitement and stir about the town owing to the opening of school for the ensuing year. The children were very anxious to resume studies and with the organization of the school getting well underway, the staff hopes to make this year a very successful one. The four members of the staff are:

Mr. C. E. Johnston, Principal; Mr. H. McCullough, Vice-Principal; Miss L. Spencer, Miss J. Mackie.

Surprise Party in Honor of Miss Carol Chrestenson

A surprise party was held for Miss Carol Chrestenson Tuesday evening by a group of Arrowwood young folks. A very pleasant evening was spent by all those present. After the serving of lunch, the party broke up as Carol was leaving very early next morning for Chicago, bidding her farewell and wishing her every success in her studies.

Mrs. M. H. Ward Entertains in Honor of Mrs. G. Campbell

Mrs. M. H. Ward entertained at tea on Friday afternoon to honor Mrs. G. Campbell, who was a former resident of this community. The guests were: Mrs. G. Campbell, Mrs. R. McBride, Mrs. R. B. Williams, Mrs. G. Jones, Mrs. G. F. Komper, Mrs. T. T. Williams, Mrs. R. N. Moir, Mrs. M. Leonard, Mrs. W. Ward, Mrs. D. Richards, Mrs. L. Richards, Mrs. R. Fonger, Mrs. J. MacLeod, Mrs. E. Lewendon, Mrs. J. Hesketh, Mrs. W. Steiner.

Breaks Leg While Cranking Car

Last Friday afternoon Dr. E. J. Lissauer was suddenly called to Queenstown where he gave medical aid to Mr. Knight Sr., of Majorsville. The latter had sustained a broken leg while attempting to crank his car in a Queenstown garage. The car had been left in gear and upon cranking, the car advanced pinning the man against a pump, and resulting in painful injuries to Mr. Knight.

The ideal harvest weather of the past week ended abruptly this morning when Jupiter Pluvius broke loose.

"How are you getting along at home while your wife is away?"

"Fine. I've reached the height of efficiency. I can put on my socks from either end now."

Local and Personal

Monday, October 10 is Thanksgiving Day.

School Fair, Friday and Saturday, Sept. 23rd and 24th.

Miss L. Mackie was a visitor to Calgary last week.

The Larsen Implements delivered a Rumely "G" tractor to E. C. Bowman this morning.

Miss L. Spencer spent a few days last week at the home of Mrs. M. Ward.

Mr. R. H. Bishop took part in the tennis tournament at Bassano on Labor Day, playing with the Gleichen Club.

The W. L. met at the home of Mrs. Smith on Tuesday, a report of which will appear in next week's issue.

E. J. Garland, M.P. for Bow River, has taken up residence in Gleichen. Mr. Garland recently moved to Gleichen from his former home near Rowley.

Mr. and Mrs. Clinton Detter of Seattle, Wash., arrived in Arrowwood by motor on Monday, and are visiting with Mr. and Mrs. R. Shatto and other friends in the district.

The choir members of the United Church are gathering together again after the summer holidays and will meet for practice on Thursday, Sept. 15, at 8:30.

Betty Rhea and Dorothy Jean Jones returned home on Saturday from a holiday spent at Gleichen.

A meeting of the P.T.A. will be held at the school at 8 o'clock next Monday evening.

Rev. J. G. Brown conducted the service in the Arrowwood United Church last Sunday, when Rev. V. M. Gilbert conducted Sacramental Service on the Milo-Townsend field.

Rev. Home and Mrs. Caskey and son Paul left last Friday afternoon for Council Bluffs, Iowa, where Mr. Caskey will resume his former pastorate.

During their summer stay in the district they have made many warm friends who regret to lose them.

Mrs. George Campbell and two sons, Ronald and John, former residents of this district, who had been residing at Vancouver and recently moved to Calgary, were visitors last week at the home of Mr. and Mrs. McBride.

Mrs. J. V. Henderson, L.T.C.M. (Graduate of Trinity College of Music, London, England) is commencing to give private lessons in piano theory and violin. Mrs. Henderson comes to Arrowwood highly recommended and interested music students will be very fortunate in securing her as teacher.

Mrs. Carol Chrestenson left Wednesday morning with her two aunts, Miss B. Chrestenson and Miss I. Chrestenson, for Chicago, Ill., where she intends to take a secretarial course, at school there. Carol has always been associated actively with the people of Arrowwood. In school, church and store, so her place will be a difficult one to fill. We all wish Carol the best of success in the future.

All operators of Threshing Rigs and Combines in Alberta, whether for private or public use, are required to be registered annually, the fee being One Dollar \$1.00.

THRESHERS' LICENSES

The fee for 1932 season is now payable at
DEPARTMENT OF AGRICULTURE
Edmonton, Alberta.

Initial Payment of 36 Cents Will Be Made By Pool

initial payment by Alberta Wheat Pool for the 1932-33 crop on rail load lots basis at Vancouver, has been set at 35¢ per bushel, according to a statement by pool officials, Thursday. The price set for the other grades are No. 2, Northern 32, No. 3 Northern 29, No. 4 Northern 23, No. 5 19c, No. 6 16c and 15¢ per bushel.

Payment for No. 1 hard in other classes of grain is as follows: Tough 30c, dried 37c, damp 28c, rejected and rejected sprouted 28, smutty 28c, tough rejected 23c, rough smutty 28c, Amber Durum 35c, Alberta Red Winter 30c, white spring 30c, mixed wheat 28c and mixed grain 15c per bushel.

The minimum initial price on all grades not listed will be 15¢ per bushel basis, Vancouver. The initial payment is the same as that of last year.

Mrs. R. Dahl and baby daughter returned from Vulcan last Sunday.

The weather of the past week has been ideal for harvest and good progress has been made with the work.

The shooting season for ducks and geese opens at 12 o'clock noon on Thursday, Sept. 15th.

Mr. and Mrs. E. Sawyer and family of Carstairs spent Sunday visiting with relatives in Arrowood.

The shooting season for ducks and geese opens at 12 o'clock noon on Thursday, Sept. 15th.

Mr. F. E. Quililan who has been relieving manager at the Bank of Nova Scotia during Mr. Bishop's holidays, left on Monday for Regina.

Every car driver knows the superior quality of White Rose gasoline but they don't all know that they get it at the same price as ordinary gas—at Phillips' Hardware.

Mr. R. R. Saunders was a business visitor to Calgary last Friday and Saturday. He was accompanied by his daughter, Gwendolyn, who wrote exams at the Institute of Technology and Art.

Mrs. J. V. Henderson, L.T.C.M. (Graduate of Trinity College of Music, London, England) is commencing to give private lessons in piano theory and violin. Mrs. Henderson comes to Arrowood highly recommended and interested music students will be very fortunate in securing her as teacher.

Mrs. Carol Chrestenson left Wednesday morning with her two aunts, Miss B. Chrestenson and Miss I. Chrestenson, for Chicago, Ill., where she intends to take a secretarial course, at school there. Carol has always been associated actively with the people of Arrowood. In school, church and store, so her place will be a difficult one to fill. We all wish Carol the best of success in the future.

Mrs. J. V. Henderson
L.T.C.M. (London, Eng.)
is prepared to give private lessons
or conduct classes.
Price: Half price.

Resource Office, Arrowood

Regular Meeting U.F.W.A. at Home of Mrs. J. Mackie

The regular meeting of the U.F.W.A. was held at the home of Mrs. J. Mackie Wednesday afternoon. Fourteen members and four visitors were present.

The routine business of the meeting was dealt with, after which the members decided to serve Jiffy dinners and afternoon tea on both days of the School Fair. The proceeds to be divided between the P.T.A. and the U.F.W.A.

A very dainty lunch was served. The hostesses were Mrs. F. E. Bell and Mrs. Leonard.

The next meeting will be held at the home of Mrs. W. C. Lyle on Sept. 21st.

The members were pleased to have as one of their visitors, Mrs. C. Detter, of Seattle.

Why Delay

Hundreds of lives are sacrificed each year because of inexplicable delay. Loving parents are shocked slowly in securing for their children the protection against disease which is now available.

For one reason or another many parents delay in this matter. They act as though their child were different from all other children, as though they were safe from the germs of disease to which other children fall victim.

Too often parents believe that their child is safe because he is still in their eyes, just a baby. They will not have him vaccinated for months, years, or until he starts school.

Delay of this kind is surprising, because it simply ignores the fact that the common communicable diseases affect the preschool child. These diseases are indeed most damaging and often fatal in their results amongst these younger children.

Unfortunately we are as yet unable to protect them against all diseases, but can against smallpox and diphtheria by the use of well established methods.

There is no reason why many hundreds of Canadian children should suffer from the ravages of diphtheria each year, nor is there any excuse for the fact that for several hundred lives are lost yearly as a result of this disease.

Such a condition continues to exist due to one factor and one alone: delay on the part of parents to have their child immunized or protected against diphtheria. Every means that the child goes unnoticed, no one known when or where the child may be attacked by the germs of diphtheria. An attack means illness; permanent damage to his body or even death.

Diphtheria immunization has been used extensively. Thousands of children are no longer in danger of suffering from an attack of diphtheria. They are prepared to deal with the germs and their bodies cannot be harmed by them.

To those parents who have not as yet secured this protection for their children we would put the question "Why Delay?" It is not safe to leave your child unprotected, when protection can be readily and safely secured? There is no time than the present to eliminate the dangers of diphtheria from your home.—Health Service of the Canadian Medical Association.

School Notes

On Monday, Sept. 5th, great excitement was caused by the opening of school. Many children appear pleased that school has opened, but on the other hand there are those who can not see why there are not at least another month's holidays.

The teachers, Mr. Johnston, Mr. McCullough, Miss Spencer and Miss Mackie, are at present working hard to outline to the pupils the work to be done in new grades. Some classes have already resumed work, but other classes are awaiting the arrival of new books.

The High School attendance is much smaller this year than last. Around thirty pupils are expected to be present, while last year there were about forty. • • •

The school ground equipment is much the same as last year with the exception of the new teeter-totters that have been erected. These consist of a steel pipe base with the teeter-totters fastened on by metal couplings. They are affording a great amount of amusement for the children and they should last a long time. • • •

The High School softball and bats seem to have vanished. Although it is known that the boys bat was broken, no trace of the girl's bat can be found. Until this bat can be located some other source of amusement will have to be found.

Miss Mackie reports that she has eight beginners in her class this year. • • •

The time tables for Grade IX, X and XI have been drawn up. These will be changed from time to time, as Mr. Johnston will be able to tell after a while when subjects of the classes will work in best.

The High School has only one new-comer this year, Miss Shirley McLeanly. Shirley attended this school a number of years already, so she was very heartily welcomed back by many friends.

The teacher was giving the class a lesson on an excerpt from the Bible, concerning the land of Canaan.

"What do you think the land of Canaan is like?"

"It must be a land flowing with milk and honey would be like."

The answer was promptly given, "Sticky, sir."

TRAIN SCHEDULE AT GLEICHEN

No. 1 Westbound 4:30 p.m.
No. 3 Westbound 6:54 a.m.

No. 2 Eastbound 3:45 a.m.
No. 4 Eastbound 6:35 p.m.

The time is rapidly approaching, Sept. 23 and 24, the dates set for the Arrowwood School Fair. This is one of the worthwhile enterprises sponsored and made possible by the co-operation of the people of Arrowwood, Shouldice, Mossleigh and the surrounding districts.

The event is annually looked upon with much anticipation by both school children and parents. This year it is hoped that the Fair may be up to the standard of other years and at all possible to eclipse those of past years.

A meeting has been called for Tuesday evening, at 8 o'clock, when it is hoped that all teachers of the School Fair District will be in attendance, as well as the members of the executive, so that final arrangements can be made for the fair.

The Clock of Life

The clock of life is wound but once
And no man hath the power
To tell just when the hands will stop
At late or early hour,
Now is the only time you own;
Live, love, toil with a will;
Place no faith in tomorrow; for
The clock may then be still.

The last five year average of Alberta wheat is 19.24.

Radio And War

Giving Publicity To International Dispatches May Save Future Troubles

Imagine the summer of 1914, if present educational methods and the present degree of international graft had existed. English literature would have heard the case of Germany, the case for France, the case for all the belligerents but as eloquently as the popular press would be put and in their language of each country but addressed in their own tongues to all the principal Powers. War Offices and Admiralties throughout Europe would have fumed to think that war was inevitable, but it would have been practically impossible to avoid it; the politicians would have welcomed it and I think the public would have demanded it. The delaying effect would surely have been considerable. But even if the situation had been very different in the light of international analysis of the microphone, the difficulties of conducting a war in the public ear, as it were, with its moves and repercussions over the world, would have been even more than now conceivable. Yet this is actually the state of things which, so far as I can see, will prevail in future. No matter how much a Government may take over a national service and exclude all but its own people from it, it will not be able to prevent listeners from hearing also the news and statements from abroad which shed another light on policy and on operations. To the layman it seems futile to continue to insist that we must pose except against the realistic background of world-wide publicity and a world-wide interchange of news and views.—Week-End Review.

Danger From Police Dogs

Tanquerey Blames These greater Men Than The Wolfmen

The papers urging that "police dogs" should not be permitted in cities call it a "tame wolf". Quite This very "tameness" makes him more dangerous to people than the wolf. The Canadian wolf will not come within hailing distance if he knows it. The Alsatian dog, on the other hand, is a friendly animal until at unexpected moments he reverts. Dogs of his temperament should not be kept in urban centres but rather left to the dog or people in his neighbourhood whom he doesn't know.—Ottawa Journal.

Need More Light

Specialists in lighting say that the pupus of "old eyes" admit only one-fourth as much light as the average adult eyes, and therefore should have four times as much light to use as the young adult needs.

Fibeldon: "Did you ever try making a comrade of your boy?"

Phegie: "Yes, but it didn't work. I found he was too old for me."

All Her Children Were Troubled With Diarrhoea

Mr. J. J. Bicker, R.R. 1, Enderby, B.C., writes: "Last summer all my children were troubled with diarrhoea, and was so bad I did not know what to do. A friend told me to give them Dr. Fowler's Extract of Wild Strawberry, so I got a bottle, and after a couple of doses they should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so quickly and quickly."

Retain Consular Services

U.S. Not Planning To Close Any Consular Offices In Dominion
Thought of state department is working on a program to close United States consulates as an economy move. It is learned at the department that none in Canada is likely to be shut down. The United States has 29 consulates and six consumer agents in the Dominion, more than twice as many as in other countries, but it is said by state department officials that all are busy.

Asked by congress last spring what additional diplomatic services could make to government savings, Secretary of State Stimson said he would rather close minor embassies and legations than curtail consular services abroad. It was rumored then that the United States legation at Ottawa might close, unless some economic axe had to be resorted to. It is now said there is no intention to move from the Canadian capital its senior foreign diplomatic establishment.

Has No Use For Money

Hermit Of Hebrides Finds Contentment On Lonely Island

On the mile square island of Mingulay in the Outer Hebrides, 100 miles from Scotland, lives a really happy man.

He has solved all the problems of life. He never uses money; seldom sees another human being; and does not care a jot about reparations and tariffs.

Wars, plagues and deaths of kings concern him not. He is neither a convict nor a lunatic, but simply a Scottish farmer named Russell, who hates civilization. He lives alone.

Everything he needs is finds on the island. He grows his food and makes his own clothes, as happy and carefree as a savage. Sea birds, fish, goats and sheep are his only companions for miles around.

The First Railway Whistle

Was Used Hundred Years Ago In Leicester Road

London newspapers to hand, comment on the fact that July 17 last, was the centenary of the railway whistle which has become a familiar instrument made fashioned "a steam trumpet to be worked from the boiler." On July 17, 1832, the first train was run on the Leicester and Swannington Railway, and the master engineer, Mr. George Stephenson, gave the signal for the engine to move by blowing into a long pipe. There was no other warning available than the old coach horn, gave the order for the steam trumpet. The locomotive has thus been whistling for a hundred years and there are many persons who will hope that the whistle will still be heard a century hence.—Montreal Gazette.

New Kind of Wheat

Cross-Bred Wheat Said To Be Immune To Flea Beetles

A new kind of wheat, which has just begun to be regarded in the British Isles, a wheat plant, was described recently as a Lester beetles' musical instrument, made fashioned "a steam trumpet to be worked from the boiler." On July 17, 1832, the first train was run on the Leicester and Swannington Railway, and the master engineer, Mr. George Stephenson, gave the signal for the engine to move by blowing into a long pipe. There was no other warning available than the old coach horn, gave the order for the steam trumpet. The locomotive has thus been whistling for a hundred years and there are many persons who will hope that the whistle will still be heard a century hence.—Montreal Gazette.

Science Perfects Cure For Car Drowsiness

Ancient Chinese Drug Said To Be Effective

Science has perfect a cure for the drowsiness which follows the use of his automobile. Narcolepsy, the name given to sudden spasms of irresistible sleep, has been found to succumb to doses of ephedrine, a drug which in the form of mahuang was used in Chinese medicine 4,000 years ago.

Dr. Harry C. Cooley, who announced the cure, declared one case had responded instantly, after recurring attacks for 12 years had caused him to have severe automobile accidents.

Indians Offer Land

But Wyoming Braves Ask Privilege Of Killing Sheep

A progressive farmer has gained the repulsion of being the manliest man in his town, and consequently is not a favorite with his neighbors.

He owns an ox horse, as to put it mildly, is very thin, as to put it

it more exactly, is not fit to pull a team, however the animal has a large mind, since too large. The other week he went to the expense of a new collar for the animal. A few minutes after the delivery he was back at the saddle's with the collar.

"You've made it too small," he blurted out. "I can't get it over his head!"

"Over his head?" replied the sardine. "Man alive, it wasn't made to go over his head. Buck him into it!"

Policans have no song and the adults make no calls, while the young call for food with a low-grunt, rising at times to a shrill scream.

Most woodpeckers bore round holes in trees, but the pilated woodpeckers dig both round and square holes.

It does pay to ROLL YOUR OWN*

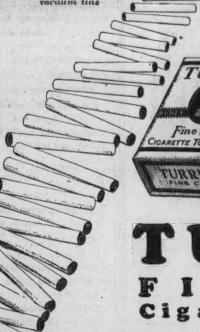

From the standpoint of economy—each 25c. package of Turret Fine Cut contains

the makings for at least 50 cigarettes—and Chantelle cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

Believe It Or Not

Resident Of Halifax Comes Along With Good Fish Story

The best fish story of this season is told by a resident of Halifax, Nova Scotia. The story is about a gold fish, not the one who had no privacy, but an extremely adventurous gold fish.

The gold fish, according to a regular Halifax housewife, jumped four feet from its bowl to a chandelier, where it lay in a state of coma for goodness knows how long. Discovered by its heartbroken owner before rigor mortis had set in, it was placed in cold water, where it lay for hours.

To her surprise, the fish was still breathing.

When she turned it over,

she found it was still breathing.

When she turned it over again,

she found it was still breathing.

When she turned it over again,

she found it was still breathing.

When she turned it over again,

own it is only natural that attention should centre on aeroplanes and automobiles or some new electrical contrivance. And improvements along these lines have so absorbed our attention that other lines are excluded. But when one stops to think for some years astronomers have known the very minute that the eclipse could be seen at any given point on the surface of the earth, we realize that the science of meteoritics has not lagged behind the others. And who was the one who wanted to see it, but was not himself on Time.

But what a disaster it would be if their movements were not regular and on Time? The regularity of day and night, the regularity of the lengthening and shortening of these periods season following following season—the wonders of it all is amazing and we join with the immortal Kant in his admiration of the—

“Starry heavens above”

The ancients used to say that the harmony of the spheres made music and if we listen closely we too can catch their melody.

UNUS SOLUS

Just Some Old Man

Who is dead? Did you ever ask that question when you heard the tolling of the church bell?

And if you did, did you receive the answer:

“Oh it’s just some old man.”

You, just some old man. Even his face is no longer remembered.

His face may or may not have been familiar upon the streets of the town he inhabited.

He was just an old man. Ah! the irony of fate.

It is not long since the old man you bury to-day was young, ambitious, and just as handsome as you are.

He, too, when replying “Oh some old man.”

“Just some old man.”

It does not seem possible, does it?

It certainly can’t be that you the handsome, well dressed, perfectly groomed, clever, smart cooking cook-of-the-walk will be “just some old man.”

Well, we’ll admit that it does not seem probable and that Providence should make an exception in your case.

But the exception won’t be made.

Nature is as exact as the multiplication table.

And Providence has pretty much gone out of the exception business. So better make up your mind that some day you will be just an old man.

“Oh! it’s so disagreeable.”

Yes we know but we can’t change it.

So when you hear the church bells tolling, and you ask yourself “who is it?” and the answer comes back, “some old man” just say to yourself, “There’s my funeral if I live a few more years.”

Yes there it goes. See how they hurry!

They want to get the old man stored away as quickly as possible that they may go back to their business and their pleasure.

The casket is lowered, the minister says “dust to dust.” It’s all over, and the crowd scrambles home again.

“Whom were they burying today? you ask, as you see the empty hearse return.

“Oh, some old man.”

“When you hear that, just say to yourself, ‘some day I’ll be that some old man.’”

Yes, in spite of all the fuss and all the feathers, you will be “just some old man.” —Wainright Star.

Railroad transportation is an essential factor in development on this continent and gives relatively free rein should speedily show signs of recovery using it to increase buying of materials and employment of labor, says the Greenville (S.C.) News editorially.

Total production of hogs in Canada in 1931 amounted to 27,857,357 lbs. valued at \$2,058,094. Ontario led the Dominion with a total of 10,357,357 lbs., Manitoba second with 5,487,735 lbs. and Quebec third with 5,632,760 lbs.

Ten thousand rainbow trout fingerlings have been deposited in the French River since June, following experiments conducted last year. The previous experiment was so satisfactory that the government has decided to repeat it if success still attends these efforts, the French River Bungalow Camp will have a large number of trout to its already well diversified angling attractions.

Bob Davis, globe-trotting New York Stock Exchange broker, has returned to his beloved British Columbia, having recently arrived from Honolulu where he had been engaged in the Canadian Pacific fleet. He proposes to spend some time in the city of Vancouver and the province and then go to the Rockies where he will meet Irvin Cobb and Captain Charlie, two also famous American publicists.

“Tourists spent almost one million dollars for events in 1931,” says Mr. Davis. “A million is virtually equal to \$20,000,000, the Canadian, Ontario, Gleaner, and Courier claim. This puts it into the class of big business.”

Corporations, the same subject, the Nelson, B.C., and Cranbrook, B.C., chambers of small towns throughout Canada which have not yet realized the value of tourist business could do for them.

Bravery of the growing popularity of the Canadian Pacific Railway long rate barges return to the port of Vancouver. Last year was again furnished by the success of the Quebec Province and Montreal. This year the trip to the Great Lakes is a continuation of Peter Lougheed’s famous O’Gorman Gold. At the Canadian Pacific Railway’s French River Bungalow Camp, Lila is training for the contest by packing heavy bags and getting into French River water and by spending hours swimming. She is soon to be with Mrs. Jack G. Stratton, wife of the manager of the Bungalow Camp.

The thirty-two men and women from Britain and America now touring British Columbia under provincial government auspices found Victoria most agreeable and added quite up to advance notices of being the most livable city on the West Coast. They were particularly impressed by the beauty of the city and at some of the homes they inspected and specially with the famous Hartchart Gardens. They are travelling by Canadian Pacific Railway.

Indian Maiden Great Athlete

Lila Commander, pretty Indian maiden and outstanding athlete of the French River country, plans to be right up in front at the finish of the Marathon race at the Toronto Exhibition. Lila is a member of Peter Lougheed’s famous O’Gorman Gold. At the Canadian Pacific Railway’s French River Bungalow Camp, Lila is training for the contest by packing heavy bags and getting into French River water and by spending hours swimming. She is soon to be with Mrs. Jack G. Stratton, wife of the manager of the Bungalow Camp.

WAGIN' TUNG

Vol. 2, No. 4 Arrowood, Sept. 8, 1932 Items for That

Why Not A Night Watchman?

The Arrowood district is moving to market one of the cities for which this valley is famous. Naturally a big crop attracts many transients—good and otherwise. It seems to us that our village “Dadis” could wisely spend a little of the ratopayers’ money in giving us a night watchman and a little protection.

For added power to handle this heavy crop there is nothing better than the new Bumbley 4. It’s all tractor from radiator to draw-bar. Ask Mr. E. C. Bowman about the “4.” His recent purchase of a Bumbley “4” gives him the last word in a power farming unit. Its performance will be well worth watching.

The proof of the pudding is in the eating. The demand for Autolene Motor Oil is an indication of its quality compared with the best of lubricating oils and if it is price that counts

you will find the price of Autolene within reason.

Remember Autolene are life savers for your gasoline engines.

I’ve just caught five flies two males and three females.

How could you tell?
Two were on the card table and three on the mirror.

For that troublesome belt which is continually needing replacing, have it laced with Clipper (not alligator) belt lacing and end your belt troubles for the rest of the season.
